Collection:	Könyvtár
Inventory number:	Mad/380-2018

Description

Japanese dolls are made from wood, paper, cloth or clay, and a wealth of techniques are employed to create a quiet beauty of expression and a rich display of color. Because they exhibit a high level of artistic workmanship, dolls are no longer confined to being the simple playthings of children, but have attained the status of a formative art, constituting a separate genre within the field of handicrafts.
